Stainless Steel Gasketed Knock Out Seals with Stainless Steel Wingnuts

316 Stainless Steel Oil-tight Knockout Seals with Gasket.

Inserted in discontinued, open box knockouts to protect exposed wires on stainless steel enclosures and cabinets. The 316 Stainless steel material and gasketed closure plate allows the installer to prevent oil, water, dust, dirt and debris from entering live electrical

panels through unused knockout openings.

[CONTRACTOR APPROVED]

316 Stainless Steel Wingnuts

Gasketed Steel, Screw/Bar Type Knockout Seals.

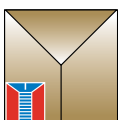

Inserted in discontinued, open box knockouts to protect exposed wires. They are used in standard, air tight or dust tight applications when they have gaskets. These one piece preassembled screw and backer bar slide on open knockout holes without removing box

devices or covers.
